

Our Environmental, Health and Safety Policy

Amiand Consulting is committed to protecting the Environment, Health, and Safety of our employees, clients and the communities and societies where we work.

We recognize that by integrating sound environmental, health, and safety management practices into all aspects of our business, we can offer a high standard of service while conserving and enhancing resources for future generations.

We strive for continuous improvement in our environmental, health and safety management systems and in the environmental quality of our projects, processes, and services.

GUIDING PRINCIPLES

"Prepare and Prevent do not Repair and Repent."

We shall meet or exceed all applicable environmental, health and safety requirements. We will evaluate our EHS performance by monitoring ongoing performance results and through periodic management reviews.

Where laws and regulations do not provide adequate controls, we will adopt our own standards to protect human health and the environment.

We shall Support and promote sound scientific principles and fiscally responsible public policy that enhance environmental quality, health and safety.

We Advocate the adoption of prudent environmental, health and safety principles and practices by our associates, vendors, and suppliers.

We communicate environmental, health, and safety policies and programs to Amiand Consulting employees and stakeholders.

We design, manage and operate our facilities to maximize safety, promote energy efficiency, and protect the environment.

We strive to provide design services and implement projects that are safe in their intended use, conserve energy and materials, and prevent pollution throughout the life cycle including design, use and end-of-life management.

We Ensure that all employees are aware of their role and responsibility to fulfill and sustain our environmental, health and safety management systems and policy
